

# ELECTRICITY BILL

**Aim:** To develop a java code application to print electrical bill

## Requirement :

- Develop a java application to create a package billings and to create a class electricity bill with data members .consumer no, consumer name, previous month reading, current month reading, type of eb connection member function :get data, print data, compute bill amount and constructors
- Create a class calculations with main functions, create object of e bills, get data and display the bill amount by calling compute bill amount() function.

## Algorithm:

**Step1:** Declare a package electricity bills

**Step2:** Declare a class name of electricity bills.

**Step3:** Declare a constructor with initial attributes.

**Step4:** Declare get data member and member function.

**Step5:** Declare a class calculation with a static main function.

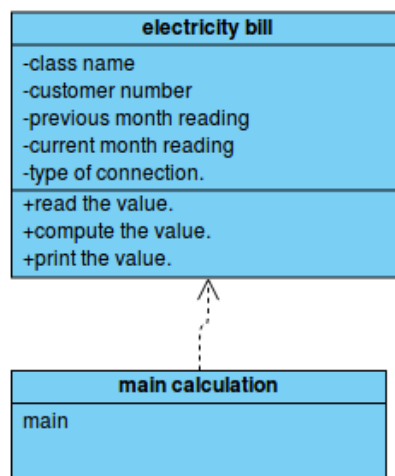

**Step6:** Create an object by with consumer name, consumer number, previous month reading, present month reading.

**Step7:** Get the input from user.

**Step8:** Calculate the total electricity bill.

**Step9:** Display result.

        System.out.print("\n"+spacing+"\n");
    }
}
calculation.billing.java-1
package electricitybills;

public class Calculationforbillings {

    public static void main(String[] args) {
        // TODO Auto-generated method stub
        ElectricityBills E1,E2;
        E1=new ElectricityBills(1001,"A",90,110,"Domestic");
        E1.printData();
        E2=new ElectricityBills();
        E2.getdata();
        E1.computeBillamount();
        E2.computeBillamount();
    }

}

```

## output:

```

CustomerNumber:1001
CustomerName:A
PreviousMonthReading:90
CurrentMonthReading:110
Customertype:Domestic

```

## BILLING INFORMATION

```

Enter the customernumber:1001
Enter the customername:a
Enter the Previous Month Reading:90
Enter the Current Month Reading:110
Enter the Customer type (Domestic,Commercial):domestic

```

-----  
 ----

## SALE BILL

-----  
 ----

```

CustomerNumber:1001
CustomerName:A
PreviousMonthReading:90
CurrentMonthReading:110
Customertype:Domestic
                Total Amount:   20.00 Rs

```

-----  
 ----

-----  
 ----

## SALE BILL

-----  
 ----

```

CustomerNumber:1001

```

CustomerName:a  
PreviousMonthReading:90  
CurrentMonthReading:110  
Customertype:domestic  
Total Amount: 0.00 Rs

---

**Result:**

As per requirement electricity bill is generated with previous and current month reading by using java programme.
